INSPECTION REPORT

(Continuation sheet)

Page 2 of 2

PERMIT NUMBER: ACT/007/004

DATE OF INSPECTION: March 30, 1999

(Comments are Numbered to Correspond with Topics Listed Above)

1. Permits, Change, Transfer, Renewal, Sale

The Division is continuing to review the application to change the postmining land use and release bond on part of the area on the west side of the Price River. Also, on March 10, 1999, the Division received a permit transfer application.

4. Hydrologic Balance

b. Sediment Ponds and Impoundments

I forgot to check the inspection reports for the MSHA ponds but will plan to do that in April.

d. Water Monitoring

I checked all second, third, and fourth quarter water monitoring data, and I believe it is complete except for a few sites that are normally dry or that essentially no longer exist. Anybody taking water samples needs to record all sites, even if they are dry.

20. Air Quality Permit

It was a very windy day, and a lot of coal fines were being blown off the stockpile on the east side of the river. Not being trained to take opacity readings, I do not know whether the opacity was greater than allowed by the Air Quality Approval Order. The operator needs to take steps to reduce potential fugitive dust emissions from the stockpile, possibly including watering it.
