Partial: XXX Complete: Exploration:
 Inspection Date & Time: 10/26/2001 / 10:00am-2:30pm
 Date of Last Inspection: 09/19/2001

Mine Name: Wellington Preparation Plant County: Carbon Permit Number: C/007/012
 Permittee and/or Operator's Name: Nevada Electric Investment Company (NEICO)
 Business Address: c/o Mt. Nebo Scientific, P.O. Box 337, Springville, Utah 84663
 Type of Mining Activity: Underground Surface Prep. Plant XXX Other
 Company Official(s): Patrick Collins
 State Official(s): Stephen J. Demczak Federal Official(s): None
 Weather Conditions: Clear skies, 60's
 Existing Acreage: Permitted 1573.5 Disturbed 392 Regraded Seeded
 Status: Active XXX

REVIEW OF PERMIT, PERFORMANCE STANDARDS & PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For complete inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check N/A.
 - b. For partial inspections check only the elements evaluated.
2. Document any noncompliance situation by referencing the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Division Orders, and amendments.

INSPECTION REPORT

(Continuation sheet)

PERMIT NUMBER: C/007/012

DATE OF INSPECTION: 10/26/2001

(COMMENTS ARE NUMBERED TO CORRESPOND WITH TOPICS LISTED ABOVE)

1. PERMITS, CHANGE, TRANSFER, RENEWAL, SALE

No permitting action has been submitted or is being reviewed by the Division.

3. TOPSOIL

Topsoil piles were inspected with no signs of wind or water erosion occurring since the last inspection.

4A. HYDROLOGIC BALANCE: DIVERSIONS

The diversions were inspected and were found to comply with the requirements of the Mining and Reclamation Plan and the R645 Coal Rules. The undisturbed diversion located above the westside of the property needs to be cleaned in the near future. A recent rain storm caused sediment to build-up and erosion to occur. The permittee has planed to clean out the diversion at the same time when and if the sediment ponds are needed to be cleaned out this year. This would reduce mobilization cost. The sediment ponds are going to be surveyed in the near future to determine if the pond's sediments are below the clean out level. If the sediment is below the clean out level, these ponds will not be cleaned out. The permittee will then repair and clean out this diversion.

4B. HYDROLOGIC BALANCE: SEDIMENT PONDS AND IMPOUNDMENTS

No sediment ponds were discharging during the inspection. The permittee may spray dust suppression again on the slurry ponds. This chemical needs to be sprayed periodically to prevent dust from entering the atmosphere. No dust was noticed in the air during the inspection.

4C. HYDROLOGIC BALANCE: OTHER SEDIMENT CONTROL MEASURES

The siltation structures that were inspected complied the R645 Coal Rules. The permittee uses straw bales and silt fences in the disturbed area.

4D. HYDROLOGIC BALANCE: WATER MONITORING

The second quarter water monitoring data was electronically submitted to the Division. The third quarter information is being processed by the lab and will be submitted by the end of the fourth quarter. Fourth quarter water samples have not been taken, but will be by the end of the fourth quarter.

7. COAL MINE WASTE/REFUSE PILES/IMPOUNDMENTS

The refuse pile was inspected with no hazardous conditions being noticed. The slurry ponds are being inspected weekly.

8. NONCOAL WASTE

The area was clear of non-coal waste material.

INSPECTION REPORT
(Continuation sheet)

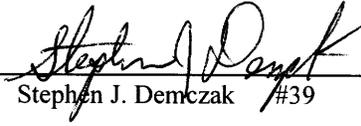

PERMIT NUMBER: C/007/012

DATE OF INSPECTION: 10/26/2001

18. SUPPORT FACILITIES/UTILITY INSTALLATIONS

No new support facilities were built since the last inspection.

Inspector's Signature: _____

Stephen J. Demczak #39

Date: October 31, 2001

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas & Mining.
