Re: Missing Pages Previously Approved with AM99B, Nevada Electric Investment Company, Wellington Prep Plant, C/007/0012, Outgoing File

Dear Mr. Collins:

Your letter dated January 6, 2005 supplied us with missing pages and figures for our copy of the Wellington Preparation Plant Mining and Reclamation Plan (MRP). The pages that were missing have been stamped incorporated and inserted into the MRP. With this letter you are also being provided with stamped "incorporated" copies of the missing pages.

The copy of Plate F9-177 Sheet 1 of 2 that you sent is the same as that currently in the approved MFP. So no replacement was made.

If you have any questions, please call me at (801) 538-5286 or Priscilla Burton at (801) 538-5288.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor
