Pam & Dana:

Some data was inadvertently left out. Let's try this again.

Patrick,

I don't know what happened with GW-4 data, but it is now in the pipeline and ready for uploading. I guess you probably have to go through the official submittal again - sorry!

Patrick,

I have uploaded all of the information for Wellington from the pipeline

file://C:\DOCUME~1\OGMUSER\LOCALS~1\Temp\NGPPRNBI.htm

8/9/2006

into the database. A report is attached.

As a reminder, according to parameters set by the assigned hydrologist, you are still missing a sample for GW-4.

Please let me know if you have any questions.

Thank you,
