Subject: Abatement Extension Request: N06-37-1-1
CC: Pam Grubaugh-Littig <PAMGRUBAUGHLITTIG@utah.gov>, Tony Garcia <TGarcia@nevpa.com>

Dear Priscilla:

As per our telephone this morning, it appears the Division would like some additional details regarding our findings and abatement information submitted on August 7, 2006.

I suggested meetings in the field and your office the same day to discuss our findings. These meetings could include you and I plus our hydrologist, engineer, and possibly another representative from NEICO's Las Vegas office -- plus anyone from the Division you would feel would be appropriate to attend (I would also like Dana Dean to be present if possible).

Accordingly, this e-mail is then a request for an extension for all abatements in order to resolve this issue. I would think a 30-day extension for this meeting to occur would be sufficient, however, with the number of people involved for scheduling, **perhaps a 60-day extension** (for remedial actions 1-3) **would be more realistic** with another 30-days for the remainder of the remedial actions (remedial actions 5-8).

Please let me know what you decide.

Patrick
