

TECHNICAL MEMORANDUM

Utah Coal Regulatory Program

March 3, 2006

TO: Internal File

THRU: Pamela Grubaugh-Littig, Permit Supervisor

FROM: Priscilla W. Burton, Certified Professional Soil Scientist, Team Lead

RE: MRP Outdated Drawing Removal, NEICO, Wellington Preparation Plant, C/007/0012, Task ID #2427

SUMMARY:

This amendment to remove an outdated map was received January 30, 2006. The existence of the outdated map was noted during the December 2005 complete inspection (Rpt #828). As stated in the amendment, Dwg 712e that was incorporated in the plan superceded Dwg A9-1464 that was never removed from the MRP. This amendment removes Dwg A9-1464 from the MRP and requests that the associated cross section (shown on DWG E9-3453) is crossed-out. DWG E9-3453 remains with the MRP as it depicts the Road Pond.

RECOMMENDATIONS:

The amendment is recommended for approval. A field check of DWG's E9-3453 and A9-1464 will be conducted during the next complete inspection.
