RE: Wellington Prep Plant (C/007/0012), historic BETX-N and propylene glycol lab reports

Dear Jim,

As requested, attached are copies of quarterly lab reports for BETX-N and propylene glycol from 2nd quarter 2001 through 4th quarter 2006 for the Wellington Prep Plant (C/007/0012). All of these reports have been filed in the official permit files as they have been received, and have been made available to UDOGM inspectors on an ongoing basis.

I will enter BETX-N and propylene glycol data for relevant site into the electronic database beginning with 1st quarter 2007 data, continuing until such time these parameters are removed from the monitoring plan.

Please let Patrick or me know if you have any question about this submittal.

Sincerely,

Karla Knoop
