REPORTING OF OTHER TECHNICAL DATA

List other technical data and information as required under the approved plan, which must be periodically submitted to the Division. Specify whether the information is included as an attachment to this report or currently on file with the Division.

Please List Attachments:

- 1). Quarterly water monitoring is required. Results from laboratory analyses for this monitoring have been submitted to the Division's EDI system.
- 2) Annual Certified Refuse Pile Inspections (included in this report).
- 3) Quarterly Pond Inspections (included in this report)

REVIEWER COMMENTS Met Requirements Did Not meet Requirements

The permittee has the fourth quarter refuse pile inspection in the annual report. In the past during complete inspection I have seen first thru fourth quarter refuse pile inspections. The annual sediment pond were conducted in August 16, 2010. Both the refuse pile and annual sediment inspections are P.E. certified. No hazardous conditions were reported.

Pond Inspection Reports were examined during the four complete inspections in 2010. Copies of the fourth quarter pond inspection reports are included with the Annual Report; the inspection sheet for the Roadside Pond indicates the pond has a capacity of 0.356 acre-feet but has remaining sediment capacity until clean-out of 0.410 acre-feet. It isn't clear why there is extra capacity in this pond: this pond was last cleaned in 1998.

LEGAL, FINANCIAL, COMPLIANCE AND RELATED INFORMATION

The Division is Requesting that each Permittee review and update the legal, financial, compliance and related information in the plan as part of the annual report. Please provide the Department of Commerce, Annual Report of Officers, or other equivalent information as necessary to ensure that the information provided in the plan is current. Provide any other change as necessary regarding land ownership, lease acquisitions, legal results from appeals of violations, or other changes as necessary to update information required in the mining and reclamation plan. Include certified financial statements, audits or worksheets, which may be required to meet bonding requirements. Specify whether the information is currently on file with the Division or included as an attachment to the report.
