Patrick,

As we discussed, the Division is willing to allow more time to complete the Midterm review, based on the need for our engineer to conduct some field reconnaissance at the site. Your request to extend to February 11, 2013 is hereby approved. Thank you for your diligence in completing this important review. Regards,

Daron Haddock

Hello Daron,

To follow up with the telephone conversations today with you and James Owen, we request an extension to address the remaining few Midterm deficiencies at the Wellington Prep Plant. This would enable Mr. Owen to conduct a site visit and subsequent collaboration to get his comments and recommendations prior to the next submittal. Does an extension to February 11, 2013 sound reasonable to you?

Thank you for the consideration on this matter.

Patrick D. Collins, Ph.D.
