Springville, Utah 84663

Subject: Change of Operation and Pond Outlet Modification, Wellington Prep Plant, C/007/0012, Task ID #4455

Dear Mr. Collins:

The Division staff has completed the recently submitted *Change of Operation and Pond Outlet Modification Outlet* amendment to the Wellington Prep Plant Mining and Reclamation Plan (MRP). The Division has recommended conditional approval. The amendment will receive final approval when the following conditions have been met.

1. Provide two clean (non-redline strikeout) copies of the amendment to the Division. A stamped incorporated copy will be returned to you for your records.
2. Provide the Division with verification that an industrial storm water permit (as required by the Division of Water Quality, letter to Michael Jennings, dated August 29th, 2013) has been obtained. The permit may be obtained on-line at the link below. The first heading on the web-site link, "*Storm Water Permit issuance System*", is where the permit may be obtained. Once the on-line application is completed and payment received, the permit coverage begins immediately.
