Salt Lake City, UT 84114-5801

RE: Wellington Prep Plant
Wellington, Utah

Dear Mr. Christensen:

The Wellington Prep Plant has requested to use material defined as "refuse" under your rules as base material for a proposed railroad track expansion. In a meeting with you, Daron Haddock and my staff, this proposal was discussed.

Based on a review of the analytical results and a review of the solid and hazardous waste rules, the Division does not have regulatory jurisdiction over the use of this material for the proposed purpose.

If you have any questions, please call Otis Willoughby at (801) 536-0220.

Sincerely,

Scott T. Anderson, Director
Division of Solid and Hazardous Waste

STA/OHW/tjm
