Title: MINOR TRACK EXPANSION

Reclamation Plan

Bonding Determination of Amount

Analysis:

The amendment requests permission to expand track to increase trans-loading operations. The expansion represents an 8.5% increase in track.

The track expansion will not require any modification of the bond. The application can be approved as submitted. Any future submittals with adjustments to surface facilities must include adjustments to surface facilities maps, indication of the facility's proximity to the disturbed (bonded) area boundary, and the appropriate adjustments for bonding.
