Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The permittee wants to add a train track spur to the site for loading of crude oil. At the present time the site is used for trans-loading of oil from trucks to rail containers.

The permittee is in the process of cleaning coal fines on the Westside of the property. MSHA has stopped this project and requesting safety training and safety advisor on the property.

There is no action on the eastside of property where the slurry ponds are located.
