2017 Annual Report Review Completion

Suzanne Steab <suzannesteab@utah.gov>
To: Patrick Collins <mt.nebo@xmission.com>

Fri, May 25, 2018 at 6:57 AM

The Division staff completed the review of the 2017 Annual Report for the Wellington Prep Plant. Attached is a copy of the review with comments.

No hard copy will follow.

Thank you for your diligence in completion the Annual Report.

REVIEWER COMMENTS Met Requirements Did Not Meet Requirements

See comments below.

COMMITMENTS AND CONDITIONS

The Permittee is responsible for ensuring annual technical commitments in the Mining and Reclamation Plan and conditions accepted with the permit are completed throughout the year. The Division has identified these commitments below and has provided space for you to report what you have done during the past year for each commitment. If additional written response is required, it should be filed as an attachment to this report.

Title: Slurry pond refuse analysis

Objective: To determine the chemical characteristics of the waste being uncovered by re-mining.

Frequency: Every 5 years beginning in 2016 as described in Section 5.23

Status: Pending initiation of re-mining activity.

Reports: 2016 annual report

Citation: MRP Chapt. 5 Section 5.23

Operator Comments

As suggested above, this report was submitted in the 2016 annual report.

Reviewer Comments Met Requirements Did Not Meet Requirements

On page 4 of Chapter 5 (Section 5.23), the sampling of slurry pond material is discussed. An outline of the sampling methods is provided. The 1st item indicates that "Sampling will be conducted every 5 years beginning in 2016".

As the sampling of the slurry material was provided in the the 2016 annual report, additional sampling was not required in 2017. The next sampling even t of the slurry pond material will be required in 2021.

FUTURE COMMITMENTS AND CONDITIONS

Although there are not any technical reports due for the current year, the following are required by the permittee in the future as indicated by the "status" field. These commitments are included for information only, and do not currently require action. If you feel that the commitment is no longer relevant or needs to be revised, please contact the Division.

Title: RIPARIAN AREA ENHANCEMENT

Objective: To enhance wildlife habitat in the riparian area within the permit area. Salt Cedars will be removed by cutting and herbicide application. Cottonwoods and willow cuttings (collected from upstream borrow area) will be planted in addition to the seed mix.

Frequency: N/A

Status: Due to the magnitude of tamarisk along the Price River, this commitment should be re-evaluated and other mitigation to enhance wildlife habitat at this site should be considered.

Reports: None

Citation: Volume I-A, Chapter 3, Section 3.42, pg. 2-3.

Title: AIR QUALITY

Objective: Should fines removal operations exceed 1,000,000 tons per year, PRT will submit an air pollution control plan.

Frequency: Once, if fine removal exceed 1,000,000 per year

Status: Have not met exceedance

Reports: Submit when approved by Division of Air Quality

Citation: Section 4.20, Page 1

Title: BASELINE WATER SAMPLING

Objective: Determine any changes in water quality data over time

Frequency: One year preceding permit renewal. Next baseline: 11/2018

Status: Have not met exceedance

Reports: Submit when approved

Citation: Section 4.20, Page 1

REPORTING OF OTHER TECHNICAL DATA

Please list other technical data or information that was not included in the form above, but is required under the approved plan, which must be periodically submitted to the Division.

Please list attachments:

- 1) The Riparian Area Enhancement mentioned above has been re-evaluated by Lisa Reinhart (DOGM) and Patrick Collins (Mt. Nebo Scientific).
- 2) Quarterly water monitoring is required at the site. Results from the laboratory analyses for this monitoring have been submitted to the DOGMs EDI system on a quarterly basis. The hard-copies of the lab work is also shown to DOGMs inspector during the quarterly complete inspections.
- 3) Attachment:
REFERENCE AREAS
AT THE WELLINGTON PREP PLANT:
A QUALITATIVE ASSESSMENT
2017
- 4) Attachment:
Certified Quarterly Refuse Pile inspection reports have been submitted in this document.
- 5) Attachment:
Certified Annual Pond Inspection reports have also been submitted herein.

Reviewer Comments

- 1) The Riparian Area Enhancement commitment is available to be re-visited and the MRP could be amended following a submission by the Permittee. Upon review, however, no amendment to the MRP was found. The original commitment, as described above, is still in the MRP as of this review.
TM 3/29/18
- 2) The Permittee has provided the required quarterly monitoring data as outlined in the approved water monitoring plan. The results have been reported within established deadlines and all required data provided. Baseline data collection is required in 2018. SC 5/24/18
- 3) A qualitative assessment of the vegetative reference areas was included in the 2017 annual report. The summary of this report is that "Both reference areas remain in good condition and continue to be viable success standards for future revegetation." Photos and GPS coordinates for the reference areas were also included in the report.
TM 4/24/18
- 4) and 5) The required quarterly inspection reports for all on-site refuse piles and sediment ponds were provided with the Wellington Prep Plant 2017 Annual Report. These reports were completed and stamped by Dan W. Guy, Registered Professional Engineer for the State of Utah. JE

MAPS

Copies of mine maps, current and up-to-date, are to be provided to the Division as an attachment to this report in accordance with the requirements of R645-301-525.240. The map copies shall be made in accordance with 30 CFR 75.1200 as required by MSHA. Mine maps are not considered confidential.
