Hi Erik,

Just checking in to see when the Wellington Prep data will be ready for upload. Please let me know so I can 4th quarters report wrapped up before the end of the month.

Thanks,
Steve

Hi Steve,

Thanks for the update. Yes, we're getting close to having those entries all completed on our end. We'll have things finalized and marked ready to upload shortly. I'll let you know when everything is ready.

Have a fantastic day up there!
Erik

Hi there,

I was just in the database and I saw that there's data in there for 4th quarter 2017 and 1st quarter 2018, but none of the samples have been approved on your end so I can bring them in.

If you could o.k. those and let me know when I can upload them, I'd appreciate it. I'm trying to get all my end of quarter reports done as well (busy time for everybody) so I need to be able to get the data out.

I could be wrong, but in just eyeballing the data, it looks like not all of the sites are in there for both quarters, but I could be wrong.

Let me know when the data is good to go.

thanks,
Steve

Thanks Steve. We'll get that taken care of.

Cheers,
Erik

Hi,

I went ahead and deleted all of the water quality data that was in the pipeline for 4th quarter 2017 as we discussed.

Go ahead and upload the newly re-run data and let me know when it's good to go.

Thanks,
Steve
