Hello,

The Division staff have completed the review of the 2019 Annual Report for the Wellington Prep Plant. Attached is a copy of the review with comments.

No hard copy will follow.

Thank you for your diligence in completing the Annual Report.

REVIEWER COMMENTS Met Requirements Did Not Meet Requirements

The refuse pile 2019 quarterly inspections for the West Side and East Side Piles were conducted as follows:
1st Quarter done on 01/04/2019.
2nd Quarter done on 04/01/2019.
3rd Quarter done on 07/10/2019.
4th Quarter done on 10/12/2019.
The 2019 annual sediment pond inspections for all of the sediment ponds was conducted on 10/12/2019. (KRH)

COMMITMENTS AND CONDITIONS

The Permittee is responsible for ensuring annual technical commitments in the Mining and Reclamation Plan and conditions accepted with the permit are completed throughout the year. The Division has identified these commitments below and has provided space for you to report what you have done during the past year for each commitment. If additional written response is required, it should be filed as an attachment to this report.

Title: SLURRY POND REFUSE ANALYSIS

Objective: To determine the chemical characteristics of the waste being uncovered by re-mining.

Frequency: Every 5 years beginning in 2016 as described in Section 5.23

Status: Pending initiation of re-mining activity.

Reports: Annual Report

Citation: Chapter 5, Section 5.23

Met Requirements

Did Not Meet Requirements

To be evaluated in 2021 as stated above.

FUTURE COMMITMENTS AND CONDITIONS

The following commitments are not required for the current annual report year, but will be required by the permittee in the future as indicated by the "status" field. These commitments are included for information only, and do not currently require action. If you feel that the commitment is no longer relevant or needs to be revised, please contact the Division.

Title: RIPARIAN AREA ENHANCEMENT

Objective: To enhance wildlife habitat in the riparian area within the permit area. Salt Cedars will be removed by cutting and herbicide application. Cottonwoods and willow cuttings (collected from upstream borrow area) will be planted in addition to the seed mix.

Frequency: N/A

Status: Due to the magnitude of tamarisk along the Price River, this commitment should be re-evaluated and other mitigation to enhance wildlife habitat at this site should be considered.

Reports: None

Citation: Chapter 3, Section 3.42, page 2-3

Title: AIR QUALITY

Objective: Should fines removal operations exceed 1,000,000 tons per year, PRT will submit an air pollution control plan.

Frequency: Once, if fine removal exceed 1,000,000 per year

Status: Have not met exceedance

Reports: Submit when approved by Division of Air Quality

Citation: Section 4.20, page 1

REPORTING OF OTHER TECHNICAL DATA

Please list other technical data or information that was not included in the form above, but is required under the approved plan, which must be periodically submitted to the Division.

Please list attachments:

1) The Riparian Area Enhancement mentioned above has been re-evaluated by Lisa Reinhart (DOGM) and Patrick Collins (Mt. Nebo Scientific). 2) The baseline water sampling schedule mentioned on the previous page was discussed with DOGM in November 2018. The result of the discussion was that the baseline data for the Wellington Prep Plant will not be due until "well into 2019" {E-mail to Erik Petersen from Steve Christensen dated November 29,2018). Consequently, the baseline water sampling was conducted in the 3rd Quarter of 2019. 3) Quarterly water monitoring is required at the site. Results from the laboratory analyses for this monitoring have been submitted to the DOGMs EDI system on a quarterly basis. The hard-copies of the lab work are also shown to DOGMs inspector during the quarterly complete inspections. 4) Attachment: Certified Quarterly Refuse Pile inspection reports have been submitted in this document. 5) Attachment: Certified Annual Pond Inspection reports have also been submitted herein

REVIEWER COMMENTS Met Requirements Did Not Meet Requirements

Water Monitoring data for Wellington Prep has been submitted to the DOGM database on time and as required throughout 2019. Baseline sampling has taken place 3rd quarter 2019 on schedule as required. (AD 6/17/2020)

MAPS

Copies of mine maps, current and up-to-date, are to be provided to the Division as an attachment to this report in accordance with the requirements of R645-301-525.240. The map copies shall be made in accordance with 30 CFR 75.1200 as required by MSHA. Mine maps are not considered confidential.
