August 16, 1976

Mr. Ron Daniels, Coordinator  
Mine Land Development  
Utah Oil & Gas Conservation Division  
1588 West North Temple  
Salt Lake City, Utah 84116

Dear Mr. Daniels:

This letter is to inform you of our intent to commence coal exploration drilling operations on fee lands located in Carbon County, east of Scofield. The lands are included within Townships 12 and 13 South, Range 7 East. Fifteen drill holes, ranging in depth from 110 to 1800 feet are planned to be drilled. The number of drill holes and locations may be varied somewhat depending upon the results of initial exploration work.

All drill holes will be plugged in accordance with Rule M-3 (4). This will be in such a manner as to prevent the migration of oil, gas, water or other substance from one formation to another. All holes will be plugged at the surface. Drillsites will be reclaimed to as near natural condition as it feasible.

Operations are now underway and are expected to be completed about September 30, 1976. It is requested that the information contained herein be kept confidential.

Sincerely,

SSI CONTAINER CORPORATION  
INTERNATIONAL B.V.

*D. Glyn Thomas*
