RE: Reclamation Surety T-Bills Mature, Kaiser Coal Corporation, Geneva Mine, ACT/007/013, #5, Carbon County, Utah

I spoke with Larry Richardson, State Treasurer's Office, on June 13, 1985 regarding the maturity of the T-bills deposited by Kaiser Steel Corporation for the Geneva Mine. These T-bills matured on June 6, 1985. This money has been deposited in an investment pool for the state and can be released by the Division at any time. Mr. Richardson will send statements to the Division to my attention about the monthly status of the account with a copy to Richard Grannis, an accountant for Kaiser Steel.
