Re: Mid-Term Review Deficiencies, UtahAmerican Energy, Inc., Horse Canyon Mine,
ACT/007/013-MT98, Folder #3, Carbon County, Utah

Dear Mr. Marshall:

The Division has completed a technical review of the information that was submitted to address deficiencies identified in the Mid-Term Review. You should recall that there were two remaining issues that needed to be addressed. You have adequately addressed the issue dealing with soils and identifying soil resources but, the issue dealing with drainage control on the site is still considered to be deficient. Please review the attached technical memos for more information. You will need to address the drainage issue by no later than August 6, 1999. We will look forward to your prompt response.

Please call if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".
Daron R. Haddock
Permit Supervisor
