Dear Mr. Hansen:

UtahAmerican Energy, Inc. (U.E.I.) is soliciting bids to implement phase II bond release at the Horse Canyon mine. Environmental Industrial Services (E.I.S.) has been retained to prepare a scope of work and over see actual construction "Reclamation" of the area.

In essence, the work will consist of four separate tasks within the same area. These are:

- (1) Removal of a sediment pond.
- (2) Removal of the old bridge abutments.
- (3) Removal of a culvert and numerous silt fences.
- (4) Seed and mulch all areas disturbed in association with the above construction.

In addition, there may be other associated tasks identified by the Utah Division of Oil, Gas, and Mining (U.D.G.O.M.).

An onsite show me trip is scheduled for April 27, 2000, at 10:00a.m. Representatives of U.E.I., E.I.S., and D.O.G.M. will be available to answer any questions relative to the work proposed. Both hourly rates as well as a not-to-exceed bid will be requested. All bids will be directed to U.E.I., and they will choose the successful bidder.

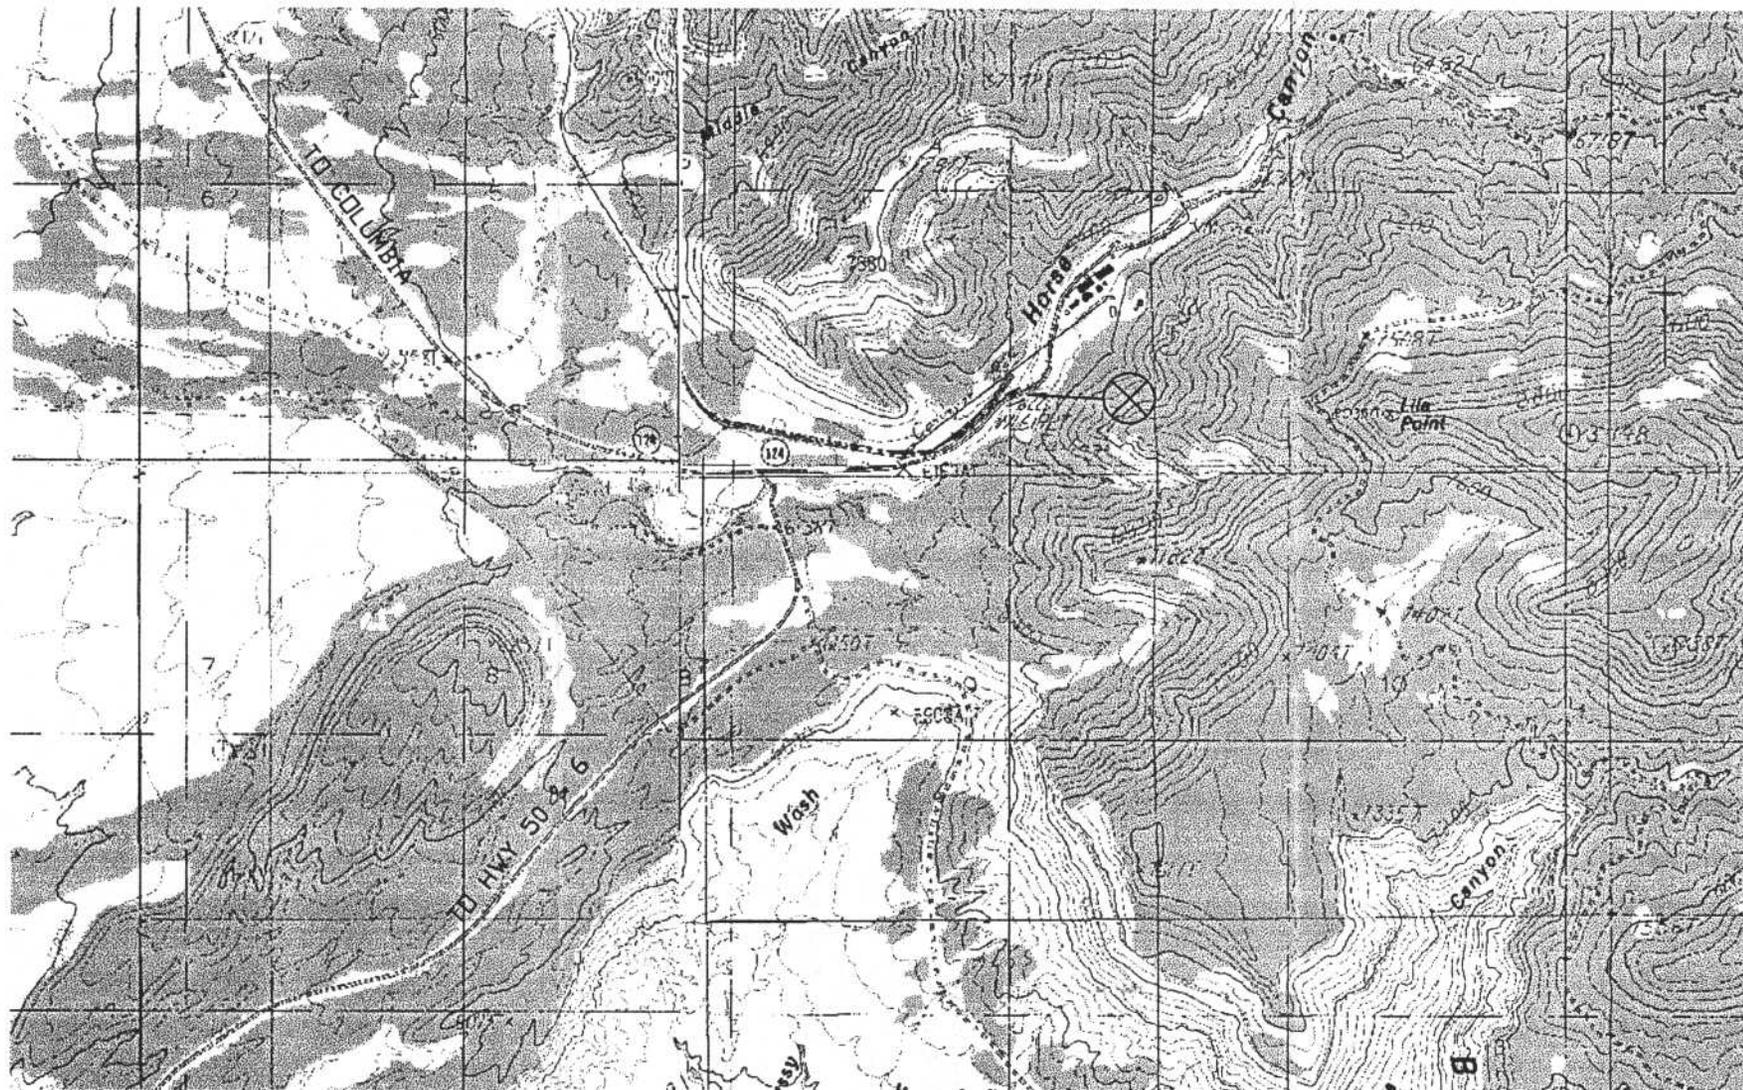

I have attached a map which gives directions to the site. All bidders must have a representative at the site tour to be considered for contract award.

Any questions can be directed to E.I.S., Mel Coonrod, at (435) 472-3814.

Sincerely,

Melvin A. Coonrod
Owner
