From: Field Manager

Subject: Resource Recovery and Protection Plan (R2P2) Lila Canyon Mine, UtahAmerican Energy, Inc. (UAE), December, 1998 (Revised January 24, 2000)

On August 15, 1996, we received a request for a determination of whether mining on the subject BLM-administered lands would be in conformance with the current BLM land use plan. We have reviewed the subject mine plan and the Price River Management Framework Plan (1983), as amended. The lands have been designated as suitable for coal development. Therefore, coal development within the proposed tract is in conformance with the Price River Management Framework Plan.

If you have any questions, please contact George Tetreault at (435) 636-3604.
