Jerriann,

Per our conversation earlier, I've reviewed the proposed additional identification efforts and I think they will take care of the concerns we had.

Thanks for your hard work on this project!

Matt,

Once you have reviewed the maps and text, call me. I will be out in the field today, but in the office the remainder of "my" week (M-Th).

Sounds like we can call Everett through the 6th or contact through email anytime if we have any modifications to the informal solution.

We will send our correspondence letter to SUWA after you and I have finalized this draft.

Cheers.

Jerriann-

I wrote a little informal solution to the problem and dropped it off at Matt's office (attached). I also made up maps for him. He said he would look at it next week - he's pretty busy.

I don't need the other topo maps right now. Depending on what SHPO and DOGM needs, we will probably use them later.

I will be taking off for New York on Sunday, but will have my laptop and can be reached on my cell phone (602) 758-9335. On 7th through the 16th I will be in Europe. No phone service, but I will be checking my email.
