Subject: Emery County Lila Canyon Road Easement Application Status (Sec 32, T16S, R14 E)

Chris,

I am curious if the above referenced road easement application was approved by the SITLA Director yet? Your September 13, 2005 email indicated that the application was under preliminary review, you had sought comment from RDCC, and that you anticipated a decision within a few weeks. Would you please provide a status report so that we can use the latest information to update our records on Lila Canyon project? Thank you for your assistance.

Sincerely,

D. Wayne Hedberg
