Subject: Horse Cyn metal

Hello Mr. Thomas,

Attached please find a photograph of the scrap metal left on the site at Horse Cyn. Prior to final bond release, we will ask UEI to remove this metal unless otherwise directed by you, the landowner. Also seen in the attached document are photos of concrete storage structures that were left for your use. These will remain.

Mr. Marshall indicated that the windows and doors of the buildings had been boarded with plywood according to contract with CEU. Currently, the windows and doors are exposed and vandals have broken many window panes and torn out some window casings for firewood.

We would be pleased to have you attend the next bond release inspection of the site and will notify you when that date approaches.
