Subject
Lila PA MOA signatory review meeting

Signatories:

Attached are the comments that we have received from the consulting parties other than the tribes.

Following my process that I drafted last year, we are now to the point for all the signatories to go over the consulting party comments. I thought that we could go ahead and start with reviewing the attached comments, first - while we are waiting for the remainder of the tribal comments. Perhaps the tribes won't issue huge changes.

As signatories, please review and prepare your comments. I would like to set up a meeting for the weeks of 3/19 or 3/26 to go over your comments. I prefer to have all signatories at the "review table" all at one time.

As a word of caution - and Matt please correct me if I am wrong - major changes at this time could be problematic for UEI. The unchanged documents are the documents that SHPO concurred on. These are the documents that have been sent out to the tribes and ACHP. If there are significant revisions to these documents 1) SHPO may not concur or 2) we may have to restart the consultation process for the PA and MOA for review of basically different documents.

Please provide me with FIVE DATES AND TIMES (2 HOUR SLOT) that you will be AVAILABLE to meet the weeks of 3/19 or 3/26.

I am AVAILABLE for the following DATES AND TIMES:

3/20 Tues 10:00 AM
3/21 Wed 2:00 PM
3/22 Thurs all day
3/26 Mon all day
3/27 Tues all day

Hopefully, I can facilitate a meeting on one of these days to fit everyone's schedules.

Cheers,

Subject: Re: term

Sure, thanks! Matt

I think we should add the full intent and not leave things open for assumption/interpretations of our intentions. We can add this info when we get all the responses back. Is that fine with you?

Yeah, that was my intention. Have an archaeologist, not a miner, look (e.g. on maps) at the surface disturbance from subsidence area relative to past survey work and sites and decide what needs to be done. THEN, depending on whether it has been surveyed or not, has a site or not, implement appropriate field visits. Do you think that's clear enough? Has UEI been reading it another way....

Matt

>>> Jerriann Ernstsens 2/8/2007 7:34 AM >>>

In the PA stips, the phrase used is "examination". I assumed that to mean exam, decide what needs to be done - nothing, class i ii iii survey. Was that your intention of the word? If you meant survey or inventory, then perhaps that should be clarified. I know late, but please consider.
