*Seeing of 2/007/0013*

Jerrian,

I think Julie did a great job of commenting on the minutes provided below, and I agree with her input. When I walked away from the meeting, I felt we had not reached an agreement on all of SUWA's comments/ issues, and that we (each agency) would review both UEI's and SUWA's comments to see if they were really valid and applicable (look for "value-added").

Also, it should be noted that there is an inconsistency with documents that were reviewed and commented on and what we had believed was the final copy. Looks like UEI responded to an earlier draft, and it is likely SUWA had as well.

*No, they did not*

I think we should wait for all comments to be received, with respect to the agency review now taking place, before we state that all are in agreement on a comment or issue provided by either UEI or SUWA.

Hope this helps.

Gregg

Re: Lila PA signatory review meeting NOTES(Document link: Gregg Hudson)

Jerriann,

Thanks for taking minutes of the meeting. I have attached my comments in track changes.

We do not have copies of your Native American consultation efforts. It would be helpful to have copies sent to both the Price Field Office and the State Office BLM so that we have a record of the NA letters. Without reviewing the record it is not possible to fully conclude that your consultation would be sufficient to meet the NA requirements for an ARPA excavation permit to mitigate site 42EM2517. For example, was the research design sent to the Tribes? It is standard operating procedure to complete NA consultation prior to issuance of an ARPA permit.

Thanks, Julie
