 Loadout
 Processing
 Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The Permittee is current relative to the required quarterly submittal of surface and ground water monitoring information and thus meets the Special Permit Condition included as Attachment "A" of the current State permit, which was issued on May 8, 2006.

Attorneys representing the DOGM, the Southern Utah Wilderness Alliance, and UtahAmerican Energy, Inc., entered into a joint agreement to move the Board of Oil, Gas and Mining to approve a Stipulation to Dismiss the Request for Agency Action and Order Dismissal of the Request for Agency Action with Prejudice on December 10, 2007. Exhibit A of the Stipulation for Dismissal contains five additional requirements which are to be incorporated as conditions of the permit for the Lila Canyon Extension of the Horse Canyon Mine (permit area "B")

There are no pending compliance actions.

Both permit areas "A" and "B" are snow covered. It was not possible to access the Canyon above the Geneva Mine overhaul shop building due to snow depths.

Similarly, the snow depth on the newly graded Emery County road (EC 126) from US Route 50 and 6 to the proposed Mine site was not accessible with a four wheel drive vehicle (soft ground conditions due to snow accumulation).

The Permittee is preparing to submit a Phase III bond application which will cover permit area "A", including the CEU donation area.

Inspector's Signature:

Date

Friday, December 14, 2007

Pete Hess, Environmental Scientist III

Inspector ID Number: 46

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas and Mining.

REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
 - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Divison Orders, and amendments.

1. Permits, Change, Transfer, Renewal, Sale

The Permittee is current relative to the required quarterly submittal of surface and ground water monitoring information and thus meets the Special Permit Condition included as Attachment "A" of the current State permit, which was issued on May 8, 2006.

Attorneys representing the DOGM, the Southern Utah Wilderness Alliance, and UtahAmerican Energy, Inc., entered into a joint agreement to move the Board of Oil, Gas and Mining to approve a Stipulation to Dismiss the Request for Agency Action and Order Dismissal of the Request for Agency Action with Prejudice on December 10, 2007. Exhibit A of the Stipulation for Dismissal contains five additional requirements which are to be incorporated as conditions of the permit for the Lila Canyon Extension of the Horse Canyon Mine (permit area "B")

There are no pending compliance actions.

Both permit areas "A" and "B" are snow covered. It was not possible to access the Canyon above the Geneva Mine overhaul shop building due to snow depths.

Similarly, the snow depth on the newly graded Emery County road (EC 126) from US Route 50 and 6 to the proposed Mine site was not accessible with a four wheel drive vehicle (soft ground conditions due to snow accumulation).

The Permittee is preparing to submit a Phase III bond application which will cover permit area "A", including the CEU donation area.

2. Signs and Markers

The Permittee identification signs located on the chain link surrounding the Geneva Mine buildings can be removed once the Phase III bond release application is approved by the Division and OSM.

3. Topsoil

The permit which is currently approved for the Lila Canyon Mine / permit area "B" contains a soil resource recovery / storage and replacement plan for cryptogamic soils which are known to exist within the proposed Lila Canyon disturbed area (See MTA, page 72) .

4.a Hydrologic Balance: Diversions

Culvert inlets and other diversions are generally snow covered (permit area "A"). To date, with the exception of the installation of disturbed area markers, no construction work has occurred at the proposed Mine site / permit area "B".
