All,  
 I attached the OGM Agenda and also the email with attachments that I sent on the 15th.

Signatories: THAT ARE RESPONSIBLE TO THE SECTION 106 PROCESS  
 Attached are the comments that we have received from the consulting parties other than the tribes.

Following my process that I drafted last year, we are now to the point for all the signatories to go over the consulting party comments. I thought that we could go ahead and start with reviewing the attached comments, first - while we are waiting for the remainder of the tribal comments. Perhaps the tribes won't issue huge changes.

As signatories, please review and prepare your comments.

As a word of caution - and Matt please correct me if I am wrong - major changes at this time could be problematic for UEI. The unchanged documents are the documents that SHPO concurred on. These are the documents that have been sent out to the tribes and ACHP. If there are significant revisions to these documents 1) SHPO may not concur or 2) we may have to restart the consultation process for the PA and MOA for review of basically different documents.

Cheers,
