Subject: Re: Horse canyon Mine, Surface Design Changes, Task ID # 3498

Suzanne,

I have reviewed the information provided and find that the submittal for Task ID # 3498 (Surface Design Changes) is ready for technical review. The materials submitted by UEI respond to deficiencies identified during review of Task ID # 3351 and listed in the Deficiency Letter from the Division to Jay Marshall dated 5 November 2009.

Thanks,

JIM
