OGMCOAL - RE: Horse Canyon Monitoring

From: Kevin Lundmark
To: Jay Marshall
Date: 7/6/2010 1:20 PM
Subject: RE: Horse Canyon Monitoring
CC: Dana Marrelli; Jim Smith; OGMCOAL; Pete Hess

Jay,

Sorry for the confusion, by Horse Canyon I was referring to permit C/007/0013 which includes the Lila extension. Data for 1st Qtr 2010 have not been entered for either Horse Canyon mine (site B-1) or the Lila Canyon extension. Water monitoring for Horse Canyon site B-1 is required until the liability period for Ditch 31 is complete. Let me know if you have any problems getting the data loaded.

Kevin

>>> "Marshall, Jay" <jmarshall@coalsource.com> 7/6/2010 12:19 PM >>>

Horse Canyon is no longer being monitored due to Phase III bond release.

If you have any questions please call.

Jay

Subject: Horse Canyon Monitoring

Jay,

I am still waiting to hear back from you on my June 23 request to set up a call to discuss precipitation data reporting in annual reports. Please let me know when we can schedule this call. Pete, Jim,, and I would like to participate from the Division.

Also: Horse Canyon water monitoring data have not been entered into the Division's database for 1st Qtr 2010. Please let me know whether you are encountering technical difficulties entering the data, or what your anticipated schedule is for getting these data uploaded.

Thanks,
Kevin
