CC: OGMCOAL

Hi Dana,

I checked and as far as I can tell, you do not have the option of deleting samples once you upload them. That being the case, I deleted the following duplicate samples which got entered from the .csv file when you uploaded the Quaker Spring data for 2nd Qtr 2010. I deleted the following duplicates after confirming results had already been submitted to the database:

L-7-G 6/24/2010

L-8-G 6/24/2010

L-9-G 6/24/2010

L-11-G 6/24/2010

I was also able to OK Quaker Spring for 2nd Qtr 2010 for upload, so that takes care of everything for 2nd Qtr. Thanks for your efforts to get that data entered!

Kevin
