Re: UtahAmerican Energy, Inc. Lila Canyon Mine, ACT/009-013, (2012 Annual Report Response) (L13-002)

Dear Ms. Burton:

As per our discussion today, UEI in our 2013 Annual Report for Lila Canyon, inadvertently stated NA addressing the "SUBSOIL USED FOR CONSTRUCTION FILL".

Chapter 2 of the approved MRP and its appendices describe the locations of shale subsoil that is to be avoided and the suitable subsoil that is to be used for four foot of cover over the coal mine waste. This subsoil will be tracked when it is moved or relocated.

Sorry about the misunderstanding.

If you have any questions please give me a call.

Sincerely,

R. Jay Marshall P.E.
Project Manager / Chief Engineer
Lila Canyon Mine
