ADMINISTRATIVE OVERVIEW

UtahAmerican Energy, Inc.
Horse Canyon Mine

C/007/0013

February 11, 2016

Background

Horse Canyon Mine is an underground coal mine located in Emery and Carbon Counties, Utah, within the Book Cliffs Coal Field, about 120 miles southeast of Salt Lake City. The mine was initially opened by the Defense Plant Corporation in 1942 as the source of metallurgical grade coal for the Geneva Steel Works in Orem, Utah. The mine was sold to U.S. Steel in 1946, which operated the mine until January 1984, when all mining was permanently suspended.

U.S. Steel submitted a permanent program mining and reclamation plan permit application on March 17, 1981 for the operations existing at that time consisting of 3,120 acres of pre and post law underground mine workings and approximately 87 acres of surface disturbance. In 1982 U.S. Steel temporarily suspended mining operations at the Horse Canyon (Geneva) Mine and in 1984 permanently suspended mining operations.

On November 11, 1984, Kaiser Steel Corporation purchased the Horse Canyon Mine property from U.S. Steel, submitted a permanent program reclamation bond in the amount of \$918,649, and indicated to the Division that it would maintain the operations in a temporary suspension status pending further corporate decisions as to the future use of the facilities.

However, On February 13, 1987, Kaiser Coal (successor in interest to Kaiser Steel) filed a petition for bankruptcy under Chapter 11, Title 11, of the U.S. Bankruptcy Code. On April 5, 1990, Intermountain Power Agency acquired the Horse Canyon Mine and submitted a letter of credit in the amount of \$1,359,000 on July 2, 1990 to secure reclamation obligations. A permanent program permit was issued May 6, 1991 and included 1116 acres.

Intermountain Power Agency completed the reclamation of 51.56 acres of the 74 acres of surface disturbance in 1991. Phase I bond release was granted on February 5, 1997.

UtahAmerican Energy, Inc. purchased the Horse Canyon Mine property and obtained permit rights in December 1998. A significant revision to the Horse Canyon Mine permit was submitted to the Division September 8, 1998 to mine south of Horse Canyon and develop new mining facilities in Lila Canyon. This significant revision was approved on July 27, 2001, but the Division decision was remanded by the Board which reversed the permit as a result of an appeal by the Southern Utah Wilderness Alliance (SUWA). The Board ordered the Division to continue to process the permit on January 23, 2002. UEI resubmitted the permit application on February 11, 2002. The application was determined administratively complete on February 25,

2002. The application was approved and a revised permit issued May 18, 2007. All mining since 2007 has been taking place through the Lila Canyon portals. Until just recently, the majority of the mining has been development mining in preparation for moving the long wall from the West Ridge mine to Lila. The long wall is now being employed at the mine with production projected to be as high as 4.5 million ton a year.

Phase II bond release on the reclaimed Horse Canyon (Geneva) mine was approved on April 11, 2002 for UtahAmerican Energy, Inc. (UEI) with the removal of the sediment ponds. The remaining 22.44 acres were acquired by the College of Eastern Utah for educational opportunities associated with the college, such as field camps. Phase III Bond Release was approved on November 30, 2009 for 74.26 acres. This left the Horse Canyon mine with 5992.07 acres in the permit with 42.6 acres of bonded/disturbed area.

Phase III Bond Release was approved on July 25, 2012 for the release of .49 acres for Ditch #31. This Phase III Bond Release was the final release of Horse Canyon "A" portion of the mine and leaves all of the mining facilities in Lila Canyon.

Proposal

UtahAmerican Energy, Inc. made application to the Division for a five-year permit renewal for the Horse Canyon Mine on December 1, 2015. The proposal is to renew the permit for the existing Lila Canyon extension and using the same mine plan as currently permitted. There are approximately 5922.07 acres within the current permit area of that 42.6 acres are allocated as disturbed area with only 33.9 acres being actually disturbed.

Public Notice

The renewal application was determined administratively complete December 4, 2015. Public notice for this permit renewal was published in the Sun Advocate and Emery County Progress for four consecutive weeks beginning on December 8, 15, 22 and 29, 2015. No comments were received.

Recommendation for Renewal

The Division made the decision on February 5, 2016 to approve the permit renewal.

The current bond amount of \$1,799,000 has been reviewed and found adequate for the currently approved Horse Canyon Mine permit area.

Recommendation

Approval for this permit renewal is recommended.
