Re: Lila Canyon Mine ACT/007/013  
Request to Retract L16-001 IBC and Ventilation Breakout

Dear Mr. Haddock,

On behalf of UtahAmerican Energy Inc., this letter is to officially request withdrawal of the IBC and Ventilation Breakout submittal. In October, 2016 UEI encountered a burned area while mining towards the breakout area. It was determined at that time that a breakout in that area was not feasible. Therefore, UEI no longer has a need for the permit submittal to include a breakout and IBC to the current MRP. There is some text in the submittal that will still be needed to clean up some text issues, however where it is not related to the IBC or Breakout, we will retract this submittal, and complete a new submittal to include the needed information.

If you have any questions, or need any additional information regarding this submittal, please contact me directly at 435-888-4000.

Sincerely,

A handwritten signature in black ink, appearing to read 'K. Madsen', written over a horizontal line.
