Attached, please find an electronic Annual Report document. When completed, it must be submitted to the Division electronically.

The 2020 Annual Report form includes entries for regulatory requirements, such as annual impoundment certification; however, many Mining and Reclamation Plans include unique, mine-specific commitments that also must be reported annually. Depending on the status of your mine (active or inactive), some of the sections of the annual report may not apply or may not require a response.

Also, when submitting raptor and archeology reports mark them as confidential by creating a separate file with confidential in the file name.

Thank you!
