File in EXP for AEP

ATTENTION: MR. RONALD W. DANIELS

Dear Mr. Daniels;

The following information provides a summary of reclamation activities from January 1, 1977, through December 31, 1977. This information is being supplied in accordance with Utah State Rule M-3

As discussed with you in our telephone conversation of Feb. 3, 1978, this report is an update of information filed with the United States Geological Survey but expanded to incorporate all property held by American Electric Power Service Corporation.

All areas disturbed in the exploration program are included. No new areas were disturbed for mining purposes and no operating facilities have been terminated. The Preparation Plant area is still under construction and final site grading and rehabilitation will not continue until the coal strike has ended.

No reclamation work will be undertaken during the winter months on the exploration project. All sites in the disturbed category will be under reclamation as soon as the weather permits.

The acres of disturbed and reclaimed surface are based on a standard drill site of 40' X 125' and a road width of 14'. The accompanying map shows those areas which have been taken into consideration for this report.

Sincerely,

AMERICAN ELECTRIC POWER
SERVICE CORPORATION

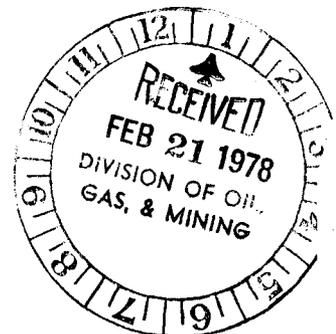

K. J. Ball

Ken Ball
Resident Geologist
