DIVISION OF
OIL, GAS & MINING

James W. Smith, Jr.,
Coordinator of Mined Land Development
State of Utah
Department of Natural Resources
Division of Oil, Gas, and Mining
1588 West North Temple
Salt Lake City, Utah 84116

Dear Jim:

Attached please find our schedule for ACR's for federal lands plans in Utah. Also identified is the Technical Project Officer(s) for the groups of plans.

With respect to a "minor" action on Belina #2, we await your decision as to whether to proceed as we suggested (request a detailed mine map showing the needs for about one year; probably heavily stipulate sediment control compliance). With respect to U.S. Fuel's conveyor, we are working on a draft analysis of what we could undertake to provide limited approval and will get that to you for review. I would venture a guess that the needs for undertaking a minor action are beginning to be satisfied for the conveyor. The status of the existing road needs to be cleared up as we discussed.

We are pushing hard for a succinct analysis of the significance of the alluvial valley floor at Sage Point Dugout and will get a draft to you as soon as possible.

We are also proceeding to obtain USGS recommendations for Plateau's extension.

Sincerely,

John E. Hardaway
Chief, Technical Analysis
and Research Division
