RE: Mine Plan Review  
Beaver Creek Coal Company  
Gordon Creek #2 Mine  
ACT/007/016  
Carbon County, Utah

Dear Mr. Smith:

This office has completed its review of the above mentioned MRP. The majority of the sediment ponds will be constructed below ground level, therefore, lessening any threat it might pose to life or property. Approval is hereby granted.

The water rights for the project appear to be in order, except for those waters developed in the mine and utilized. The proper filings should be made to cover this water use.

Please notify this office when approval is given to the company.

Sincerely,

  
Dee C. Hansen, P. E.  
State Engineer
