RE: Gordon Creek #2 Mine  
Approval to Install Extension  
of 24" Culvert Required to  
Separate Natural & Disturbed  
Drainage  
ACT/007/016  
Carbon County, Utah

Dear Dan:

This letter is in response to a request made by Beaver Creek Coal Company to Division of Oil, Gas and Mining in reference to a proposed extension of the 24" culvert currently in use at the Gordon Creek #2 Mine. This extension is necessary to prevent disturbed drainage from the downslope of the upper portal area from mixing with undisturbed drainage originating from the canyon northwest of the upper pad area.

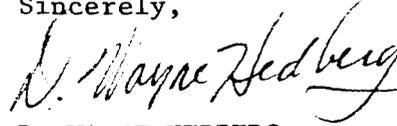

Apparently a Division oversight has led to the delayed response in this matter. Based upon a cursory review of the pertinent material relating to this modification, the Division hereby issues approval for Beaver Creek Coal Company to do the work necessary to implement said extension.

This approval is limited solely to the installation and extension of the 24" culvert and the associated berming and grading required along the east side of the materials storage pad area. This will prevent any drainage originating from the previously mentioned disturbed area from encroaching upon the undisturbed drainage diversion channel. This notice does not constitute

Mr. Dan Guy  
ACT/007/016  
April 6, 1981  
Page two

Division approval for any associated drainage and sediment control structures or designs. The Division will postpone approval of future modification(s) until such time that a complete technical analysis of the permanent submission of the Gordon Creek #2 Mining and Reclamation Plan has been ascertained.

Sincerely,

A handwritten signature in cursive script that reads "D. Wayne Hedberg". The signature is written in black ink and is positioned above the printed name.

D. WAYNE HEDBERG
