Dear Mr. Smith:

Enclosed is the final Fish & Wildlife Resources Report - Section 10 and the revised Vegetation Resources Report - Section 9 for the Gordon Creek No. 2 Mine, Mining and Reclamation Plan. These reports replace the original reports submitted in March 1981 which contained only the data available at that time. The wildlife work was performed by Western Resource Development Corporation and the vegetation work was performed by Stoecker-Keammerer and Associates. Both firms are located in Boulder, Colorado.

If you or your staff should have any questions concerning the final Fish & Wildlife Resources Report or revised Vegetation Report, please contact Brenda Schladweiler at (303) 575-7943 or myself at (303) 575-7548.

Sincerely,

David R. Chenoweth
