MEMORANDUM

TO: James W. Smith, Jr., Coordinator of Mined Land Development
FROM: David Darby, Reclamation Hydrologist *DD*
SUBJECT: Beaver Creek Coal Company, #2 Mine Yard Renovation
DATE: June 25, 1982

On June 10, 1982, staff personnel met with Dan Guy of Beaver Creek Coal Company to discuss modification to the #2 Mine yard. A visit to the minesite was made on June 23, 1982 to obtain a better perspective of the area in relationship to the changes being proposed. The modifications include regrading and shaping of the mine platform to provide for some reclamation of disturbed areas near the western portals, rerouting traffic at the coal loadout and controlling drainage from the mine yard.

The proposed changes have been reviewed by the mining staff and found to be acceptable and will enhance both mining operations and environmental stability. It is, therefore, recommended that approval be given to this modification.
