Community Health Nursing
Management Planning
Medical Examiner
State Health Laboratory

Dear Gerald:

The state has not received the plans or information regarding the wastewater facilities for the Beaver Creek Coal Company No. 2 Mine as requested in the attached July 6, 1982 letter. Since the sanitary wastewater system is probably less than 5000 gallons per day, we would suggest that your office now contact the company, review and if appropriate approve the plans.

Please send to this office, a copy of any approval so that our file will be complete.

Sincerely,

Steven R. McNeal
Public Health Engineer
Bureau of Water Pollution Control
