Inspection Memo  
to Coal File:

RE: Springs and Water Rights for  
Gordon Creek #2 Mine  
Beaver Creek Coal Company  
ACT/007/016, Folder No. 13  
Carbon County, Utah

On November 24, 1983, a phone conversation with Mike Bishop of Engineering Science Consultants about water rights and springs on the Gordon Creek #2 Mine permit area, revealed that Scott Raymond of Beaver Creek Coal Company has made no effort to contact Mike Bishop about obtaining this information.

In a draft technical analysis meeting with Beaver Creek Coal, the Division hydrologists had informed Scott Raymond that he needed to obtain this information which is severely lacking in their plan. Mike Bishop, who has compiled this information for the Cumulative Hydrologic Assessment for the Gordon Creek area, can supply this information to Beaver Creek through OSM.
