RE: Response to Determination of  
Completeness  
Gordon Creek #2 Mine  
ACT/007/016, Folder No. 2  
Carbon County, Utah

Dear Mr. Klein:

Enclosed please find eight copies of Beaver Creek Coal Company's response to the Division's Determination of Completeness and Technical Deficiency Document sent to the operator on June 9, 1983. The response is submitted as replacement pages and maps to be placed in their most recent "Underground Mining and Permit Application and Mining and Reclamation Plan" submitted on March 9, 1983. A cross-reference to assist in the review of the new material for completeness has also been enclosed.

The Division is currently proceeding with a formal Determination of Completeness and Technical Analysis of the Mining and Reclamation Plan. OSM's comments, as well as comments from other Federal agencies regarding the adequacy of this additional material, would be greatly appreciated by August 29, 1983 in order to maintain our established review schedule. If your staff has specific questions or comments concerning this application, please don't hesitate to call Steve Cox of my staff.

Sincerely,

JAMES W. SMITH, JR.  
COORDINATOR OF MINED  
LAND DEVELOPMENT
