Re: Gordon Creek No. 2 Mine
ACT/007/016 #3

Dear Mr. Smith:

Enclosed are three copies of a proposed addendum to the interim permit for the Gordon Creek No. 2 Mine. This change involves the replacement of the existing men's bathhouse trailers with a single, new bathhouse. The change will take place between the period of 6/8/84 and 7/8/84. All work to be performed will occur within the present disturbed area, and there will be no changes to existing drainage, sewage, or water line routes. The project consists of merely a replacement of existing structure with a new structure, better equipped to serve the needs of the operation.

If you have any questions, or need any further information concerning this project, please let me know.

Respectfully,

Dan W. Guy
Manager of Permitting &
Compliance
