Dear Mr. Guy:

Re: Disapproval of PAP Amendment, Request to Revise Water Monitoring Plan, Beaver Creek Coal Company, Gordon Creek #2/7 Mine, ACT/007/016-87E, Folder No. 2, Carbon County, Utah

The Division has completed its review of the above referenced PAP amendment received October 22, 1987. The proposed changes have been reviewed by Division Hydrologist, James Fricke. The revised plan cannot be approved as proposed and the operator's request must be denied in part. Please refer to the attached technical memorandum for an explanation of the technical review and recommendations.

Beaver Creek should revise this amendment request to reflect the recommendations outlined in the technical memorandum. Please provide fourteen (14) copies of the revised plans by December 5, 1987, which can be directly inserted into all appropriate copies of the approved PAPs.

Please contact me, James Fricke, or John Whitehead should you have questions regarding specifics of this technical review.

Sincerely,

D. Wayne Hedberg
Data Management Coordinator
