RE: Gordon Creek No.8 Mine Revision
Gordon Creek No.2 & 7 Mine M.R.P.
ACT/007/016 ; #3
Carbon County, Utah

Dear Mr. Braxton:

Enclosed are 8 copies of the revised submission for the proposed Gordon Creek No.8 Mine. This plan was originally submitted in December 1985, the Division responded with a D.O.C./T.D. in January 1986, and the project was put on hold shortly after.

Due to the length of time between the original and this submittal, I decided to resubmit the entire plan rather than try to update the older ones. This plan is identical to the original except that all of the D.O.C./T.D. deficiencies from your January 21, 1986 letter have been addressed with this plan.

Due to recent changes in our operating projections, it has become critical that we start construction on this projection in the fall of 1988. I discussed this timing with Mr. Whitehead, and we laid out a tentative schedule for approval in September or early October of this year. I appreciate the Division's cooperation and willingness to try and meet this schedule, and I will remain available to discuss any problems and deficiencies that may arise during the review.

Additional copies of the plan will be sent at your request. Once again, thank you for your assistance. If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy
Manager Permitting/Compliance
