RE: N.O.V. 89-33-2-1  
Gordon Creek 2/7/8 Mines  
ACT/007/016  
Carbon County, Utah

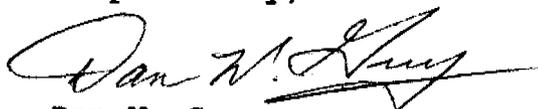

Dear Mr. Munson:

The above referenced N.O.V. was written for failure to report or test total suspended solids on 7 monitoring stations. We have checked with the lab, and although the T.S.S. analyses were apparently run, they were inadvertently left off the reports. They have subsequently faxed the T.S.S information to me, and I have enclosed a copy for your records. The situation has been corrected with the lab, and future reports will be more closely checked for accuracy and completeness.

I regret the inconvenience caused by this omission, but, as you can see, it was not intentional nor even reasonably preventable on our part. I would therefore appreciate your assistance in having the N.O.V. vacated.

Thank your for your consideration.

Respectfully,

Dan W. Guy  
Mgr. Permitting/Compliance
