Re: Response to Division Order DO-91A
Gordon Creek No.2/7/8 Mines
ACT/007/016-DO-91A; #3
Carbon County, Utah

Dear Ms. Littig:

Enclosed are 3 copies of the Mountain Coal Company response to the above referenced Division Order. This submittal addresses the No.7 Mine highwall issue as well as the technical reclamation issues raised during our recent discussions.

There are quite a number of changes; however, all pages and plates are numbered and should replace corresponding numbers in the P.A.P. upon approval.

The following is a list of significant changes or additions to the P.A.P.:

- (1) "No.7 Highwall Stability Analyses and Reclamation Limits" is included as a new Appendix 12;
- (2) The reclamation section (3.5) has been re-written for the No. 2 and 7 Mines to include all 3 sites (No. 2, 7 and 8 Mines);
- (3) The No. 8 Mine reclamation section (3.5) has been re-written to reference the new combined section (3.5) of the No. 2 and 7 Plan;
- (4) Plates 3-1 and 3-7A and 3-7B are replaced with new Plates 3-1 and 3-7 showing all 3 mine sites on one map with the same scale;

Page 2

- (5) Cross sections have been re-done on 200' centers throughout the mine property, and are shown on replacement Plates 3-8;
- (6) A new mass-balance has been done on the entire site;
- (7) A new, permanent sediment pond has been proposed on a new Plate 7-14 to replace the temporary ponds, and facilitates complete reclamation of the property in one construction season.

It is our hope these new plans meet with your approval. If you have any questions, or need any further information, please let me know.

Respectfully,

A handwritten signature in cursive script, reading "Dan W. Guy". The signature is written in black ink and is positioned above the typed name and title.
