Mr. Robert D. Williams, State Supervisor
U.S. Fish and Wildlife Services
Ecological Services
2060 Administration Building
1745 West 1700 South
Salt Lake City, Utah 84104-5110

Dear Mr. Williams:

Re: Permit Renewal, Gordon Creek #2, #7 & #8, Mountain Coal Company,
ACT/007/016, Folder #2, Carbon County, Utah

The permit states that no threatened or endangered plant or animal species or their critical habitat occur within the permit area as identified by the USFWS in 1980. The disturbed area within the permit will be reclaimed in the summer and fall of 1993.

If the statement concerning compliance with the Endangered Species Act is still current, please sign, date, and return this letter. If these statements are not current, please send the Division a current species list of endangered or threatened plant or animal species which could potentially be in the permit area. Enclosed is a sketch showing the area of operations.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in cursive script, reading 'Pamela Grubaugh-Littig'. The signature is written in black ink and is positioned above the typed name and title.

Pamela Grubaugh-Littig
